

**Stylish, Elegant,
and Sophisticated**

Differentiators

Features and Design

The MOTORAZR² V9m combines elegant design with Sprint's robust voice and data services and content. The device is super thin with an ultra premium finish. The two QVGA display screens offer an unprecedented visual experience and the phone features a 2 megapixel camera and Bluetooth technology. External touch sensitive buttons allow easy access to music, camera and more with the flip closed.

Target Customers

The MOTORAZR² V9m is targeted at Advanced Connected customers who want the latest and greatest in mobile technology. These customers also value having easy access to their music, the web and digital camera.

Sprint Power Vision[®]

Where available, consumers can experience high data speeds over the Sprint Power Vision network when accessing Sprint Power Vision services and content. With Sprint Power Vision, customers can retrieve customized, up-to-date Web content such as news, sports, and weather. Customers can also download large attachments and access corporate data.

Bluetooth Wireless Technology

Built-in radio technology for short-range wireless communication. Bluetooth allows fast, secure transmission without cables or wires between the MOTORAZR² V9m and a Bluetooth wireless headset (headset and other Bluetooth wireless accessories are sold separately).

Sprint Music StoreSM

Download stereo-quality tracks instantly. Choose songs from thousands of artists in virtually every genre, and listen wherever you go.
